| These rubber-lined connecting clamps, known in the market as «P-Clips» are composed of a zinc-plated mild steel band lined with EPDM rubber. This rubber lining allows for firm and safe clamping in the application zone and prevents potential damage due to vibration. The screw holes at either end of the band are reinforced with steel plates to ensure they clamp down firmly. P-Clips are particularly recommended for mounting pipes, electric cable ducting and hoses in a multitude of different applications. | AGD 5/12  | 03003856       | 5                    | 12                          | 5,3                 | M.5      | 200                 | 200                 |                |
