

9mm L-band Stainless steel Worm-drive clip Double Bridge Clip

W4

Light series

Double Bridge Clip

Information	Reference W4	Application Ø mm	a ± 0,3 0,2	b Max.	L	h	Box Quantity	Packing
The Double Bridge clip was developed by the Mikalor R&D Department due to requirements from the ventilation sector for a clamp suitable for spiral hose. This is just one example of how we put our engineering know-how at the service of our customers. We work together with our customers to design and craft the solution to their needs in each case. The Double-Bridge clip is manufactured in AISI-304 stainless steel.	0301409A	50-70	9	14	25,6	10	100	100

*The maximum application pressure can vary depending on the type of hose used and the geometry of the coupling.

Patented Worldwide

W4 Materials

Screw:

AISI-304 Cu (A2)
Stainless steel

Band and Housing:

X5CrNi 1810 Stainless steel
(DIN 1.4301) (AISI-304) (A2)
